

**COMMUNIQUÉ
FOR IMMEDIATE RELEASE**

**WENTWORTH INTEGRATED TOURISM RESORT DEVELOPMENT CONCEPT:
AN OPEN AND RESPECTFUL DEBATE**

On September 13th, the Municipality provided an important update on the Wentworth Integrated Tourism resort development (WITRD) concept. In this communication, we called for the civil sense of the residents of the Township of Wentworth, a quality that has always been part of the DNA of our community, to maintain a respectful and open debate about the WITRD concept. We also took the opportunity to provide an objective reminder of the facts on the progress of this file and the process of adoption of our Urbanism By-Laws, which was done in full transparency, in compliance with all laws and regulations in force and without any influence or intervention of the promoter.

Your Council would like to thank the many citizens who have contacted us and the Municipality over the last 10 days to show their support for their elected officials and the work of Wentworth employees. Several have expressed their willingness to collaborate in a rigorous process of analysis and review of the WITRD concept, which will be carried out with respect for all parties and this, based on our By-Laws which provide already several provisions to protect the environment, the quality of life of our residents and the natural countryside character of our territory.

Thank you all for your cooperation and attention.

Your Mayor,

Jason Morrison
