## THE NEWS

### Together for effective composting this winter!

The Township of Wentworth thanks you for your commitment to the responsible management of organic materials.

During this winter season, we remind you that community composters are exclusively for organic waste.

If you notice that a community composter is full, we invite you to use another available composter in the area to avoid overflow and attracting vermin. Your cooperation is essential to maintain a clean and pleasant environment for everyone!

To find the locations of composters and the list of accepted materials, please visit our website.
